

SHUTTER
collection

SHUTTER collection

With their good looks and versatility, shutters are a timeless trend. They introduce more privacy and intimacy to rooms and also provide valuable insulation.

Our shutter collection is an inspired choice of contemporary styles, shapes and finishes that will add an exciting dimension to any scheme.

GORGEOUS finishes

Pick from a luxe colour palette that includes a huge choice of gorgeous painted, stained and natural finishes.

If you prefer to unleash your own innate style, choose a custom colour option and explore the tones that suit your interior design scheme.

BESPOKE made-to-measure

Each shutter is bespoke and made-to-measure to reflect the individual architecture of your window, from the size of the louvre right down to the colour of the hinge, and installed by our highly specialist team to the most exacting standards.

So whether you enjoy contemporary modern living, have a period home or a cool city pad, we can help you find a stunning solution that meets your specific needs.

PRIVACY

Shutters are ideal for people who want privacy without sacrificing valuable daylight. Louvres can be angled according to the sun's position, and when shut, they're a great way to keep our prying eyes and therefore a good security option. Perfect if your home is on a busy street.

CHOOSE YOUR SHUTTER STYLE

TIER ON TIER

What are they?

Two sets of panels, one on top of the other that operate independently of each other.

- Pros:** Extremely versatile, giving excellent privacy and light control.
- Cons:** Not suitable for all windows as they can look too busy.
- Best for:** Bedrooms, bathrooms and dining rooms.

TRACKED

What are they?

Rather than fitting shutters in the usual manner with frames and hinges, these shutters slide on a track. They concertina back.

- Pros:** Give easy access through a patio door and can be pulled right back to make the most of a view.
- Cons:** Not suitable for a window with a sill.
- Best for:** Great for larger windows and sliding doors.

CAFÉ STYLE

What are they?

Two sets of panels, one on top of the other that operate independently of each other.

- Pros:** Cheaper than full shutters and let in more light. Gives a lovely Continental feel.
- Cons:** Less draught proofing - more a decorative feature than practical.
- Best for:** Popular for privacy in urban areas.

SOLID

What are they?

Solid wood panels that cover the window entirely.

- Pros:** Very insulating.
- Cons:** Less flexible - they're either open or closed.
- Best for:** Bedrooms and draughty period properties.

FULL HEIGHT

What are they?

The most popular option, full height panels cover the whole window. Quite often full height shutters will have a divider rail so you can operate the slats above and below it independently to control the light according to your needs.

- Pros:** Great insulation, privacy and noise control.
- Cons:** There aren't any.
- Best for:** French or patio doors and tall windows but are sufficiently flexible to be adapted to any window.

SHAPED SHUTTERS

What are they?

Bespoke panels to fit unusual and awkward shaped windows.

- Pros:** Make the most of unusual architecture. Give clean and interesting alternative to curtains or blinds.
- Cons:** Can be more expensive.
- Best for:** Any unusual shaped window.
