

MOTORISED BLIND
collection

MOTORISED BLIND collection

roller | roman | pleated | cellular | vision® | visage®

We are proud to offer an innovative new range of battery operated and mains powered window blinds. One Touch® makes luxury affordable with motorisation that is accessible to all.

Make an impression with stunning window blinds that can be operated at the touch of a button. Simple, convenient and easy to use, One Touch® blinds are operated either by a sleek and unique wand that hangs neatly next to the blind or by a remote control that allows you to operate a number of blinds at a time, depending on your requirements.

ONE TOUCH technology

One Touch® motorised blinds can be operated in two ways. Wand operation will operate a single blind and is ideal for children's room and bathrooms.

The remote control allows you to operate a number of blinds at the same time, to suit your requirements. All our blinds are of course child safe and motorisation is another example of this, giving you complete piece of mind in a chic and sophisticated way.

MODERN technology

One Touch® is available for every room and is a cool and stylish addition to the home. Whether it's for windows that are difficult to reach, child safe solution for children's bedrooms or just for the convenience that automation offers in sitting rooms, One Touch® is for you.

One Touch brings you motorisation at surprisingly low prices since the battery powered options require no wiring, making installation quick, clean and simple. Mains powered options are also available and ideal for new builds and renovation projects.
